**Attachment(s):** 0

Greetings,

My name is Jerry N. Villanueva, I am (59) years old and I have been a resident of Valley since 1984. Our first home was near Fir Ave. and Willow Tree Ave but we 28040 War Admiral St. near Cottonwood and Moreno Beach Drive.

I have made an attempt to read, review and understand the posted World Logist DEIR but honestly there is a lot of information in the report which I am sure is c thorough but fails to meet the basic concerns of myself and my neighbors.

We know that despite our efforts we are losing the last area of Moreno Valley th rural living and the beautiful view of our fields and mountains. We also know th neighborhoods will be overwhelmed with trucks, vehicle traffic, pedestrians, etc not happy.

I have been in law enforcement for almost (35) years with the first (20) years w small suburb of Los Angeles and have witnessed first hand the result of wareho near residential areas and the crime/destruction it brings to a city.

So I find all the plans, photos and words describing different results to be wort

Although I oppose the project, I was looking in the DEIR for any mention of how department will be supported in order to address the crime and traffic issues th will bring. Is there any plan to provide the police department with a Commercial Enforcement Unit? Will there be funding to train our officers and provide them proper equipment to enforce commercial vehicle laws as well as the vehicle code which are sure to occur? Will there be a specific number of officers assigned to

If we are going to allow this project to continue, why not consider the handling issues now? By working with the traffic court judges and clerical staff, commerc enforcement can be a huge revenue source for the city. If the city were to adop codes similar to the vehicle code violations and train the officers to cite for thos fines could go to the city instead of the DMV, State and other agencies.

If you are not the correct person to receive this objection and recommendation, please forward it to the right department and please acknowledge receipt of thi

Thank you very much for your time and the work you do,

Jerry N. Villanueva
