Mid County Parkway Comments

The EIR doesn't address the growth inducement result of this project. We do not have the water to supply the increased growth. The truck traffic to the Moreno Valley warehouse project will bring toxic air to the nearby conservation area. There should be no interchange at the closed Davis Rd., which goes through the S.J.W.A. as it would be destructive to the wildlife area.

P-27-1

P-27-2

P-27-3

Six lanes should not be put in now if not needed now. The Moreno warehouse and Lake View project should be paying for road improvements, not the taxpayers.

P-27-4

The EIR does not consider the latest science on climate change.

P-27-5

Interchange lighting brings light pollution to the San Jacinto Wildlife Area.
